ClickPay & Datex Property Solutions Partner to Provide Payment Solution for MRI Software Users Group Website

Click**Pay** partnered with Datex Property Solutions, makers of Datex BI, a real estate business intelligence platform, & developer of the website for The MRI Software Users Group (MRISUG), an organization of users of MRI Software to enable MRISUG members to securely pay their membership fees electronically.

The MRISUG was founded in 2002 with the goal of improving user expertise & leveraging best practices for optimization of MRI Software. MRI Software is used by thousands of real estate portfolio owners & operators across the commercial, retail & multifamily markets, & has been a market leader in the real estate software industry since its founding in 1971. MRISUG members include property management, accounting & operations managers at a wide range of real estate companies across the multifamily, retail & commercial real estate spectrum. The MRISUG website provides an environment that encourages networking & dialogue between members, facilitating the sharing of member expertise as well as solving problems together. Click**Pay**'s API seamlessly integrates with Datex, allowing MRISUG members to securely & conveniently pay their membership fees via ACH or credit card through Click**Pay**'s easy-to-use payment platform.

ClickPay enables frictionless payments between MRI Software User Group members & MRI Software.
